## Application for Conservation Project Funding

Explanation: Vya Conservation District (VCD) has funding available on a cost – share basis for projects which will enhance rangeland health within the Vya Conservation District. Our goal is to help the Landowner with their share of the project cost. Project proposals can include such things as water developments, sage grouse initiative projects, weed control, and other projects which will further the goal of improved range condition. All projects must be evaluated and approved by NRCS. Projects can be on private or public land.

Application Process: Applications for funding should be submitted to NRCS after NRCS approval of project. Applications will be reviewed by VCD at each of our regularly scheduled meetings in September, February/March, or May. Applications may be funded in part or in full at the discretion of the Board. Funding is limited and will continue as long as funding is available or until the Board of Directors chooses to terminate the program. All applicants must attend a Vya Conservation District board meeting and present the project in person.

## Application

Date Submitted: \_\_\_\_\_

Name of Entity: \_\_\_\_\_

Name of Contact Person: \_\_\_\_\_

Phone: \_\_\_\_\_ Email address: \_\_\_\_\_

Mailing Address: \_\_\_\_\_
